J. C. LAMBTON CARTER,

Superintendent.

VOL. 2.]

TUESDAY, APRIL 30, 1861.

[ No. 43.

Superintendent's Office,  
 Napier, April 23, 1861.

**H**IS Honor the Superintendent directs the following reports and returns to be published for general information:—

Engineer's Office, Napier,  
 February 4, 1861.

SIR,—I have the honor to inform you that, since my last report for the previous six months, no new work has been commenced, except a bridge between Clive and Awanga which is now completed; and the labor on those then in progress has been closed, except a few men kept on repairs.

I am glad to have it in my power to inform you that the made parts of the several Roads have sustained very little injury during the past six months, and have stood the traffic on them well.

On the Te Aute Road this has been very considerable—a large portion of what formerly went over the Middle Line passing along this, it being no unusual occurrence to meet in the course of the day 10, 12, or as many as 15 bullock drays going over it, and all heavily laden, although, 2½ years ago, the passing of even one was a rare event. To meet this heavy wear it will be requisite to make liberal provision for maintenance; by doing so, and by degrees making good the worst parts of the natural road, it will be capable of bearing any amount of traffic that is likely to arise. But few drays now make use of the Middle Road, yet it is capable of being made a valuable line without any very large additional outlay. How far the present settlement of the Province would justify the necessary expenditure, with another road

not far distant, I should hesitate to say; but it is certainly more convenient and must be used by many settlers living in the locality, who are in a manner quite cut off from deriving any advantage from the other road.

The Porangahau Road, though exposed to the very serious floods of the past year, has suffered less than I anticipated. One excellent bridge, built under the Wellington Government by the Road Wardens, has been removed (causing some delay and inconvenience to travellers). Owing, however, to the substantial manner in which it was constructed, it has not been broken up and the materials will nearly all answer again. The banks of the cuttings have slipped in a good many places, but beyond the labor of removing the stuff from the road no injury has been done. The bridge over the Eperaima River, has been completed, and is a strong substantial work. To insure its protection against the action of the weather, it will be necessary to paint it or give it a coat of tar. The former will be the most expensive, but it looks and is the best. As yet there is not much traffic on this line, but I have no doubt it will not long continue so. Much of the produce now forwarded to Napier for shipment will find its way to Blackhead, which, although merely a roadstead, has been found by the settlers, and such vessels as have taken in or landed cargo there, quite suitable for shipping purposes.

The Waipaoa to Tikokino Road has stood tolerably well, and as there are a good many occupying small freeholds in the neighbourhood who would be likely to contract for its maintenance, I would consider it advisable to invite tenders from such as would feel disposed to become contractors for its repairs. An arrangement of this kind would be an improvement on the system of carrying on those repairs by day labor.

That part of the Mohaka Road through Petane has stood well, and it would be desirable to complete a few chains more of formation, when a good line will be open from Petane Valley to Napier. The Bridle Track, I am informed, (for I have been unable to visit it) has suffered much from the action of the weather; many slips have taken place, always most annoying on a narrow track, particularly when they are caused by springs from the hills, which is chiefly the case in the present instance. If some arrangement could be entered into with the natives for keeping the track free of slips and turning the water off it, I should recommend its adoption. They are frequently

passing to and fro along it, and could remove any obstruction immediately on its occurrence. Improving the road along the Petane valley is desirable as a means of affording this small agricultural district more facilities for getting their produce to Napier, to which it is so near, and, if possible, continuing the improvements to the Pohui bush.

The small Bridge over the muddy creek at Clive—between that place and Awanga—is just completed, and will be of much advantage to persons living on the suburban lands of Clive. I regret that the settlers about the Aorangi district have suffered serious inconvenience from the washing away of the approaches to the bridge crossing the Patiki stream; but to provide against a similar accident in future the waterway has been increased by additional openings, and I expect very shortly to be able to report it completed. The time allowed the contractor has expired, but he informs me he met with more difficulty in procuring the timber than he anticipated. The road from the ferry to Clive has stood remarkably well under a heavy traffic, and although it, with the lands adjoining, has been flooded several times, it has suffered no injury. In future it should be kept in repair by contract.

I would beg to call your Honor's attention to the necessity of completing the metalling of so much of the several lines as have been formed, before commencing any new work; and making provisions for the maintenance of all completed; as it would be a pity to allow any of them to suffer injury from neglect after such large sums have been expended on them. By keeping up the works and making only the parts of the natural road which give way from time to time under the increased traffic, the expenditure will not be considerable. The circumstances of this district have so changed since these undertakings were commenced, that no such difficulties as had then to be overcome, can again occur; and, by adhering firmly to contracts in all future works, the Province will soon experience the great advantage of the system. In undertaking work in unsettled localities a departure from this may be unavoidable, but as a rule the employment of day labor by a government or public body cannot be recommended.

I have the honor to be,

Sir,

Your very obedient servant,

THOMAS GILL,  
Provincial Engineer.

To His Honor  
the Superintendent,  
Napier.

Accounts and Deposits paid on Runs, and Deposits paid on Unagricultural Land to go to Auction Office, at Napier; together with the nett amount due to the Crown, for the month of March 1861, inclusive.

EDWARD G. WRIGHT,  
Director of Public Works.

\*  
N O T I C E.

THE undersigned, having been appointed Inspector of Weights and Measures for this District, call the attention of Shop-keepers and the Public generally, to the necessity of having all Weights and Measures compared with the Standard ones in the possession of the undersigned, and stamped as required by the Ordinance.

The following Extracts are published for general information:—

“Any person who may be desirous of comparing or adjusting any Weights or Measures, shall have access to all such Copies or Models, so to be deposited as aforesaid, at all reasonable times, on payment of such fees as are hereinafter mentioned; and it shall be the duty of the respective persons, to be appointed by the Governor as aforesaid, for the safe keeping of such Copies or Models of the Standard Weights and Measures, for the purposes of reference, to compare every such Weight or Measure as shall be brought before them respectively, with such Copies or Models as aforesaid.”

“For every such examination of any such Weights and Measures, the person authorised as aforesaid, who shall make the same, shall be entitled to demand and receive of the person who shall cause the same to be made, the sum of Threepence for every Weight or Measure so compared, and no more.”

“Every person in whose house, shop, mill, store, out-house, premises, stall or standing place, cart, wheelbarrow, or basket, any false or deficient balance, or any unstamped or unmarked Weights and Measures shall be found upon any such search as aforesaid, shall forfeit and pay for every such Balance, Weight, or Measure, any sum not exceeding Ten Pounds, nor less than Five Shillings, as to the Convicting Justices shall seem meet; and all such false or deficient, unstamped or unmarked Weights and Measures shall, upon the conviction of any such person, be forfeited, and shall be broken or otherwise disposed of, as such Justices shall direct.”

“Any person who shall refuse to produce his Balances, Weights or Measures in order to be viewed or examined, every person so offending shall, for every such offence, forfeit and pay any sum not exceeding Twenty Pounds, nor less than Forty Shillings, as the Convicting Justices shall adjudge.”

WILLIAM LANGFORD,

Inspector of Weights and Measures.

Government Offices,  
April 23, 1861.

PROCLAMATION.

By HIS HONOR JOHN CHILTON  
LAMBTON CARTER, ESQ.,  
Superintendent of the Province of Hawke's Bay, in the Islands of New Zealand.

WHEREAS by an Act of the Provincial Council of Wellington, Session 3, No. 8, intituled an “Act to Amend and Consolidate the Law relating to Cattle Trespass and Impounding,” it is enacted that the Superintendent may from time to time, by Proclamation, declare any Pounds to be, or cease to be, Public Pounds, within the meaning of the said Act, and may, from time to time, in like manner, appoint, suspend, remove, and re-appoint Keepers of such Pound.

Now therefore, I, JOHN CHILTON LAMBTON CARTER, Superintendent of the Province of Hawke's Bay, Do Hereby Proclaim the Pound erected on Provincial Government Land, between Wellesley Road and the Sea, to be a Public Pound, within the meaning of the above mentioned Act, and that

JAMES SWAIN,

of Napier, shall be the Keeper thereof.

Dated this Twenty-third day of April, in the year of our Lord One Thousand Eight Hundred and Sixty-one.

J. C. LAMBTON CARTER,  
Superintendent.

T E N D E R S .

Treasury, Napier,  
April 23, 1861.

**NOTICE IS HEREBY GIVEN** that all Salaries due from the Provincial Government of Hawke's Bay will be payable at the Provincial

Treasury on the 3rd of each month: *provided* the proper Vouchers are duly forwarded to the Treasury on or before the 1st day of the month. And all other just and proper charges or demands (whether Contingent Expenses, or Contracts, or advances on account of Contracts,) will be payable at the Treasury on and from the 8th day of each month until the 22nd day of the same month: *provided always* the Vouchers supported by the proper Authorities shall have been duly sent in to the Treasury on or before the 6th day of every month. As a Rule no Moneys (whether as Imprest Warrants or otherwise) will henceforth be paid at the Treasury after the 22nd day of the month.

In those months in which Sunday falls on the 1st, 2nd, or 3rd day of the month, salaries will not be payable before the 4th of the said month.

Strict attention to this notice is requested, particularly from Government Officers and Contractors, as (the time for forwarding accounts having been lengthened) the Rule here laid down will be closely adhered to.

WILLIAM COLENZO,  
Provincial Treasurer.
