Given under my hand, at Nelson, in the Province of Nelson aforesaid, this Twenty-eighth day of May, one thousand eight hundred and sixty.

J. P. ROBINSON,
Superintendent.

SPEECH OF HIS HONOUR THE SUPERINTENDENT ON THE PROROGATION OF THE FIFTH SESSION OF THE PROVINCIAL COUNCIL, ON THE 4TH MAY, 1860.

MR. SPEAKER AND GENTLEMEN OF THE PROVINCIAL COUNCIL—

I embrace the present occasion to express to you the regret I felt, at being unable, through a sudden attack of illness, to open in person the present session of the Council.

It is gratifying to me to find that the mode proposed by me for appropriating the Revenue for the current year has so generally met with your approval. I do not doubt that the continuation or completion thus provided for, of the extensive public works and explorations commenced last year, will secure for the community all the benefits contemplated when they were originally proposed.

Amongst the proceedings which have come

under my notice, I am pleased to find that the Report of the Committee appointed by you in reference to the Claims to Compensation has received your unanimous approval, and I trust the effect of it will be to induce the General Assembly to set at rest this long pending question.

The large sum voted by you for Education will I trust place the free system so wisely and judiciously established by you in this province, and hitherto so successful, upon a firm and solid basis; and if that portion of it to be expended in building be laid out in the completion of the schools already in progress in the various educational districts, rather than in the erection of new ones, except in rare cases, where the amount of population obviously justifies the latter course, it will remove the only apparent danger which threatens the permanence of the system (though still in a less degree than it would most others), namely, its expense.

The permanent fund provided by you for the establishment of yearly prizes for rifle shooting, will afford, it is to be hoped, a powerful stimulus to our young men especially, both now and in future years, to acquire skill in the use of the rifle, and with it a habit of relying upon themselves for defence in times of disturbance and danger, which will be one of the best guarantees against their occurrence.

I have assented, on behalf of his Excellency the Governor, to the following Acts, namely:—

The Bridle Roads Protection Act,
The Hackney Carriages Act,
The Rifle Prize Act,
The Appropriation Act;

and I have, in accordance with explicit instructions received from the Governor with reference to all Acts for the raising of Loans, reserved for the signification of his Excellency's pleasure thereon,

The Nelson Institute Loan Act.

I now prorogue this Council, and it stands prorogued accordingly.

J. P. ROBINSON,
Superintendent.

HIS Excellency the Governor directs it to be notified, that the limits of the Port

of Collingwood are within a line drawn from the southern side of the entrance to the Parapara to the point of Farewell Spit, named on the Admiralty Charts "Bushend Point."

Provincial Secretary's Office, Nelson,

HIS Honour the Superintendent directs the publication of the following Report on the West Coast Coal, for general information.

ALFRED DOMETT,
Provincial Secretary.

To his Honour the SUPERINTENDENT, Nelson.

Sir—In accordance with your request I have examined the Coals from the West Coast which you forwarded to me for analysis. I now beg to communicate the result. I may here state that the opinion which I gave you on the 10th instant, from my first cursory test, is now verified by my more recent investigation, which has been carefully conducted under various methods. The results of three of these I submit, with comparisons, in accordance with the respective *modus operandi* :—

The West Coast Coals burn with a clear flame, and run together in one mass when thoroughly heated, and produce very little residue.

The accompanying parcels are cinder, coke, and ash.

I cannot help congratulating you and my fellow-settlers on this occasion upon having at your command a commodity that is essentially necessary for our domestic comforts, for our manufactures as the colony advances, and for exportation.

I only trust that sufficient quantities may be found of a similar quality (although the samples are from the surface); and it will inevitably at no remote period find its way to our market, and be a source of incalculable good to our community.

I am, &c.,

J. W. TATTON.
