Grants of exclusive Right of Burial.

4. Grants of exclusive right of burial in perpetuity shall be made out in the form marked A annexed to these regulations, and shall only be made out in the name of one particular person, to be named therein.

Transfers of Grants.

5. Any purchasers of exclusive right of burial in perpetuity in any particular plot of ground in the said cemetery in which no interment shall have taken place may, by permission of the Trustees, transfer his or her interest in the said plot of ground to any other person, upon payment being made to the Trustees of a transfer fee of 5s. for every such transfer, and on production to the Trustees of the original grant.

Should the original grant be at any time found after the issue of a duplicate, the duplicate must be at once returned to the Trustees.

Depth of Graves.

10. All graves must be dug at least 6 feet deep; but, in the event of any person requiring a greater depth, an extra charge of 2s. will be made for every additional foot.

Records and Books to be kept.

11. The Trustees shall keep or cause to be kept a book, in which shall be entered from time to time the number of every lot disposed of for the exclusive right of burial, the name of the purchaser, and date of disposal. They shall also keep a record of every lot of ground used for the purpose of interment, the name of the person interred, date of burial, and depth of grave.

Burial-warrants to be issued.

14. In all cases of intended interment, the person having management or control of the same shall apply for a burial-warrant to the Trustees or other person appointed to issue the same. The warrant shall be in the form marked B annexed to these regulations, and shall be given to the party applying for the same upon payment of the fees before mentioned in Rule 1.

Levelling and Removing of Earth done by Applicants.

15. The foregoing charges are in addition to any sums that may be paid for grants of exclusive right of burial. They do not include payment for any work required to be done beyond the actual digging of an ordinary grave, and, after the interment, filling in the same. Persons who have purchased the right to fence in parcels of ground must do all levelling required at their own cost, and only on approval of the Trustees, and must at once remove from the cemetery all earth and rubbish not required. If not removed when required by the Trustees, they may cause the said earth and rubbish to be removed at the costs and charges of the party making default in removing the same.

POPULATION.—In the case of Nelson the population is given according to the estimate for January, 1879, as the local authorities have not yet supplied the information necessary to enable the estimate to be corrected. In the other cases the estimates are for the 1st January, 1880.

The total births in the above boroughs amounted to 497, against 485 in September, being a decrease of 12. The deaths amounted to 119 in October, a decrease of 45 on the number for September.

Of the above deaths, males contributed 70; females, 49. 44 of the deaths were of children under five years of age, being 36·97 per cent. of the whole number; 29 of these were of children under one year of age.

THE following Table shows the Causes of the Deaths of Persons of both Sexes under 5 years of age and 5 years and upwards, and the Proportions per Cent. of Deaths from each cause in the Boroughs of Auckland, Wellington, Christchurch, and Dunedin that were registered during the Month of October, 1880.

The following remarks apply only to the above four principal boroughs :—

The births were 268 in October, against 270 in September, a decrease of 2.

The deaths in October were 77, against 90 in September, a decrease of 13.

There were 3 deaths of persons of 65 years and upwards, viz., 1 male of 67 and 1 female of 72 at Auckland; and 1 female of 80 at Wellington.

Zymotic Diseases.—The deaths in the 4 boroughs in October from these diseases only amounted to 8; of these, 4 were caused by typhoid fever, viz., 3 in Dunedin and 1 in Christchurch, and 2 from diarrhœa, both in Dunedin.

Constitutional Diseases.—The deaths from these causes increased from 10 in September to 18 in October; of these, the deaths from phthisis increased from 7 to 15.

Local Diseases.—These diseases caused 34 deaths in September, against 41 in October. The deaths from diseases of the nervous system were 9 in September and 11 in October; from diseases of the respiratory organs, 14 in September and 13 in October; and from diseases of the digestive organs, 7 in September and 6 in October.

The subjoined table shows the mortality for the last two months at each of these four boroughs from six principal Zymotic diseases of the Miasmatic order, and also the deaths from certain inflammatory diseases of the lungs. These causes of death have been distinguished from the others of the classes to which they belong, as being the most important special diseases which give rise to sudden increases in the death-rates of towns, and the prevalence of which is closely connected with sanitary condition and climatic influence of the season on health.
